Training

He prefers milk from mountain goats that reside in the Andes Mountains due to its high calcium content.^[85] Since the start of his competitive eating career, Chestnut's competition weight has varied from 225–240 pounds (102–109 kg). It's about drive and dedication, and at the end of the day, hot dog eating challenges both my body and my mind."^[86]

Chestnut says that he trains for hot dog eating competitions by cooking hot dogs at his house and then eating them in a simulated competition style. Chestnut starts with 40 hot dogs and then works his way up until he is in game shape. Chestnut compared it to running or lifting weights for athletes.^[87]
